

## **LIFE SAVING SOLUTIONS FOR YOUR BUSINESS**

We face challenges every day: more and more data, numbers, images to be stored, organized, archived, searched, protected. Samples to be processed, lives to be saved, information to be accessed, stored, transmitted. Faster, bigger, better. Flawlessly.

## **CHALLENGES**

The typical error rate for human data entry is 1 error per 300 characters. For barcode scanners, error rate is around 1 error in 36 trillion characters, depending on the type of barcode used.

Human errors and data entry errors can bring irreparable damage to a business leading to: higher costs, unhappy customers, and time spent solving problems. In some situations, errors can be irreparable to a business image and reputation, and in many instances they will involve legal ramifications.

In this industry, customer service and client satisfaction defines the success. Document management, professionalism, speed are key components that will help any insurance agency prevail. Managing documents such as applications, insurance policies, claims, photographs, and reports can be a challenge, especially when dealing with a lot of customers.

**Solution: ByteScout PDF Extractor SDK and Invoice Parser SDK**

## DATA SORTING

- ByteScout PDF Extractor SDK is used to search and index electronic and scanned documents, turn scanned documents into searchable PDF documents, repair damaged and malformed PDF files.
- ByteScout Invoice Parser SDK is used to automatically classify large amounts of incoming invoices by vendors.
