

LIFE SAVING SOLUTIONS FOR YOUR BUSINESS

We face challenges every day: more and more data, numbers, images to be stored, organized, archived, searched, protected. Samples to be processed, lives to be saved, information to be accessed, stored, transmitted. Faster, bigger, better. Flawlessly.

CHALLENGES

The typical error rate for human data entry is 1 error per 300 characters. For barcode scanners, error rate is around 1 error in 36 trillion characters, depending on the type of barcode used.

Human errors and data entry errors can bring irreparable damage to a business leading to: higher costs, unhappy customers, and time spent solving problems. In some situations, errors can be irreparable to a business image and reputation, and in many instances they will involve legal ramifications.

In this industry, customer service and client satisfaction defines the success. Document management, professionalism, speed are key components that will help any insurance agency prevail. Managing documents such as applications, insurance policies, claims, photographs, and reports can be a challenge, especially when dealing with a lot of customers.

Solution: ByteScout PDF Extractor SDK and PDF Renderer SDK

WORKING WITH DATA

- ByteScout PDF Extractor SDK is used for data extraction for the purpose of storing content of electronic documents in the database for indexing and archiving purposes.
- Use PDF Renderer SDK to create your previews and thumbnails of PDF documents in your internal file management system. You may also print PDF files using high quality rendering engine with no other software installed and create your own specialized PDF reader application using PDF Viewer SDK.
